PROFILE

"Aspiring Java Developer currently gaining hands-on experience through an internship in Java Spring. Proficient in building scalable web applications using Spring Boot, JSP, Hibernate. Strong understanding of object-oriented programming, database management (MySQL), and backend development. Passionate about writing clean, efficient code and eager to apply my skills in a professional development environment."

PROJECT

E-Learning Website

- Technologies Used:** HTML, CSS
 - Designed and developed a responsive E-Learning website with an intuitive UI/UX. Focused on modern web design principles for better readability and accessibility. Ensured a fully responsive layout for mobile and desktop users.

Online Advertisement System

- Technologies Used:** Java, Spring Boot, JSP, MySQL
 - Developing a web-based advertisement platform to manage and display ads dynamically. Integrating MySQL for ad storage and retrieval, ensuring smooth database operations. Aiming to provide an efficient, scalable, and user-friendly advertisement management system.

Book My Event

- Technologies Used:** Java, Spring Boot, JSP, MySQL
 - Developed a dynamic event and movie booking platform with user login and showtime-based seat booking. Integrated MySQL for secure booking data handling and implemented payment simulation with invoice generation.
