Mirzapur, Ahmedabad

PROFILE

Computer Science Engineering student with hands-on experience in Java, Spring Boot, JSP/Servlet, MySQL, Python, and the MERN Stack through academic projects and internships. Skilled in developing web applications, working with databases, and collaborating in team environments. Passionate about software development, problem-solving, and learning new technologies. Seeking an internship opportunity as a Full Stack, Java, or Python Developer to apply my skills and gain industry experience.

EDUCATION

Silver Oak University Bachelor of Technology in Computer Science & Engineering	2025 - Pursuing CGPA - 9.32
Silver Oak University Diploma in Information Technology	2022 - 2025 CGPA - 8.98
Jay Jalaram International School SSC (10th Standard)	2019 - 2020 Percentage - 63%

SKILLS

Programming Languages: Java, Python, JavaScript
Frontend Technologies: HTML5, CSS3, Bootstrap, React.js
Backend Technologies: Spring Boot, JSP, Servlet, Hibernate, Node.js, Express.js
Database Technologies: MySQL, MongoDB
Core Concepts: Object-Oriented Programming (OOP), Data Structures, DBMS
Tools & Platforms: Git, GitHub, Maven, VS Code
Other Technologies: MERN Stack, IoT, Cloud Computing Fundamentals
Soft Skills: Problem Solving, Team Leadership, Team Collaboration, Communication Skills

PROFESSIONAL EXPERIENCE

Royal Technosoft Pvt. Ltd. Java Intern	December 2024 - April 2025
- Worked on web development projects using Java and related technologies. - Assisted in database design and application development. - Collaborated with team members on project implementation.	
LaunchPad Technology MERN Stack Intern	June 2024 - July 2024
- Developed responsive web applications using MongoDB, Express.js, React.js, and Node.js. - Worked on frontend and backend integration. - Participated in debugging and testing activities.	

PROJECTS

Smart Home Awareness System

Tech Stack: Arduino UNO, NodeMCU (ESP8266), React.js, Python, IoT Sensors

- Developed an IoT-based smart home monitoring system integrating 5+ sensors for fire detection, rain detection, moisture monitoring, voltage monitoring, and smart parking management.
- Integrated 5+ sensors with Arduino UNO and NodeMCU, enabling real-time data collection, monitoring, and alert generation through a web dashboard.
- Built a real-time monitoring dashboard to track sensor readings and alerts.
- Collaborated in a team of 6 members to develop, test, and deploy the system.
- Implemented monitoring and alert mechanisms for multiple household safety conditions.

SpotAdz – Online Advertisement System

Tech Stack: Java, Spring Boot, JSP, MySQL

- Developed a full-stack advertisement management platform consisting of 5+ core modules, including user management, ad posting, category management, profile management, and admin controls.
- Designed and managed a MySQL database with 8+ relational tables for storing user, advertisement, and category information.
- Implemented role-based authentication and authorization for 2 user roles (Admin and User).
- Developed 10+ responsive web pages using JSP, HTML, CSS, and Bootstrap.
- Integrated pagination, filtering, and search functionalities to improve advertisement management.

BookMyEvent – Event Booking Platform

Tech Stack: Java, Spring Boot, JSP, MySQL

- Developed an event booking platform consisting of 6+ modules, including event management, show scheduling, seat allocation, booking management, authentication, and payment workflow.
- Designed and implemented a database with multiple interconnected entities such as Event, Show, Seat, User, and Booking.
- Developed dynamic seat selection functionality supporting real-time seat availability management.
- Built 12+ responsive pages for event browsing, booking, and administration.
- Implemented complete CRUD operations across all major modules.

CERTIFICATIONS

- **AWS Academy Graduate** – Cloud Foundations | AWS Academy | 2025
 - **Cloud Computing Fundamentals** | IBM SkillsBuild | 2025
-
